Comments

1. What did you particularly like about this subject?

I like this subject because drawing is my favourite.

2. Please suggest any improvements that could be made to this subject.

I can feel the lecturer have tried to make the lesson to be more interesting but explaining the logic is boring. Thus, it's hard to improve.

Please feel free to use the back of this form to make any other comments, particularly in relation to your above ratings.

Comments

1. What did you particularly like about this subject?

2. Please suggest any improvements that could be made to this subject.

It feels as though everything we've done is trivial and unrelating to real-world stuff. For example, we discussed anti-aliasing by drawing squares on the white board. Why didn't we look at examples of modern games and how anti-aliasing is used to improve the clarity of the image?

Please feel free to use the back of this form to make any other comments, particularly in relation to your above ratings.
